

VICTOR PRECISION

CAPABILITIES

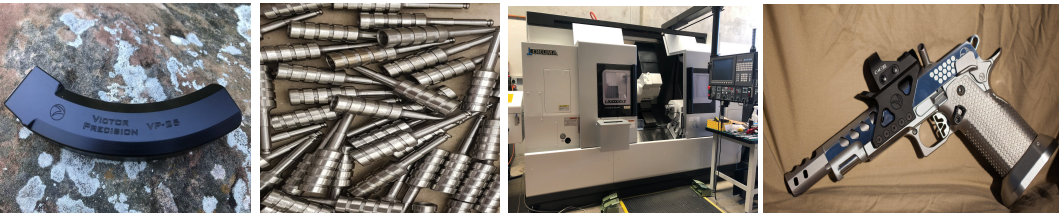

We have designed and manufactured quality products utilising cutting edge CAD/CAM technology and Precision CNC machining since 2007

- We provide a unique service with work related to mining companies, research facilities & manufacturing of firearms, related parts and accessories.
- Specialised customer specific & cost effective engineering services.
- Precision manufacturing of complex components in exotic materials.
- In-house specialised material hardening & hardness testing to required specs.
- Top of the range machinery - Okuma LB3000 EXII CNC lathe with sub spindle & Okuma CNC Vertical Machining Centre with 4th axis. Superior CAD/CAM software for design of innovative ideas.

DISCRIMINATORS

Quality designed and machined products, we cover all your needs!

- Custom design and quality machining to customer specifications.
- Fast and efficient turnaround.
- Highly trained staff with skills in all facets of the small arms industry. Our testing phase is vital in ensuring the safety of the end users.
- One on one interaction with customers for an in-depth understanding of their requirements.
- Ability to produce small, intricate parts with specific attention to detail; providing the perfect product for our customers.

KEY CUSTOMERS

- **ANGUS FLEXIBLE PIPELINES - QLD**
Design and CNC manufacture of brass and stainless-steel specialised fasteners for water hose products in the mining sector.
- **UNIVERSITY OF QUEENSLAND**
Design, manufacture & CNC Machine highly specialised parts for the Centre of Microscopy & Microanalysis Research Laboratories.
- **TACTICAL LAW ENFORCEMENT UNITS**
 - CAD/CAM designed, developed and CNC machined Simunition kits for the 1911 platform for live training.
 - Optic Riser: designed for use with a DBal laser unit and can be used comfortably with a gas mask.
 - AR 2-Stage Drop In Trigger Kits for all AR Platforms - made in QLD
- **COMPETITIVE SHOOTERS & PRIMARY PRODUCERS**
Design and manufacture fully custom competition firearms, related parts & accessories.
15 & 25 Round Magazines in both .22LR and .17HMR/Magnum

QUALITY ACCREDITATIONS

- Queensland Police Weapons Licensing fully accredited and licensed Armourer and Dealer with specialised categories and conditions applicable for highly regulated parts & projects. This includes Categories A,B,C,D,H,M & R.
- Implementation of comprehensive quality control procedures.
