

# VICTOR PRECISION

## CAPABILITIES

We have designed and manufactured quality products utilising cutting edge CAD/CAM technology and precision CNC machining since 2007

- We provide a unique service with work related to firearms, related parts and accessories, as well as specialised products for mining companies.
- Precision manufacturing of complex components in exotic materials such as titanium, tungsten, all steels, brass & aluminum.
- In-house specialised material hardening & hardness testing to required specs.
- Specialised customer specific engineering services.
- Our workshop is fitted with CNC machinery (including 4th axis) and quality tooling.
- Superior CAD/CAM software for the design of innovative ideas for prototyping and manufacturing.

## DISCRIMINATORS

Quality designed and machined products, we cover all your needs!

- Custom design and quality machining to customer specifications.
- Fast and efficient turnaround.
- Highly trained staff with skills in all facets of the small arms industry.
- One on one interaction with customers for an in-depth understanding of their requirements.
- Ability to produce small, intricate parts with specific attention to detail –providing the perfect product for our customers.
- Currently export parts to New Zealand, USA, Europe and South Africa.

## KEY CUSTOMERS

- **QLD Police - SERT (Special Emergency Response Team)**
  - CAD/CAM designed, developed and CNC machined a simunition kit for the 1911 platform for live training worldwide.
  - AR 2-Stage Drop In Trigger Kits for all AR Platforms, every part designed & machined in-house in Queensland.
  - AR Select Fire Drop In Trigger Kits - currently in design phase. All parts will be designed, machined and tested in Queensland.
- **ANGUS FLEXIBLE PIPELINES - QLD**
  - Designed and CNC manufacture brass and stainless-steel break off plugs and couplings for specialist water hose products in the mining sector.
- **COMPETITIVE SHOOTERS – AUSTRALIA, NEW ZEALAND, USA, EUROPE**
  - Design and manufacture fully custom competition firearms, related parts and accessories.

## QUALITY ACCREDITATIONS

- Queensland Police Weapons Licensing fully accredited and licensed Armourer and Dealer with specialised categories and conditions applicable for highly regulated parts & projects. This includes Categories A,B,C,D,M,R & H.
- ISO 9001 Accreditation pending, expected certification in 2022.
- Extremely high standard of quality control – nothing leaves our workshop unless it's perfect!
